Associated Charities.

At a meeting of the pastors, superintendent of schools, captain of the Salvation army, district nurse and heads of various clubs held at the library Wednesday morning, Nov. 17th, an organization of associated charities was effected. Rev. L. A. Edwards was elected president, Rev. George Pomfroy, secretary; E. A. Hamilton, treasurer; Capt. David Hickland, superintendent. The object sought is the proper care of all the needy without duplication of effort. Pastors, district nurse, club presidents and school superintendents will be given application cards which will be filled and sent to Supt. Hickland, who will investigate the claim and make such provision as he deems wise. The public is urged to send contributions of money to the treasurer, E. A. Hamilton, Newport. A room will be provided in which to store clothing, etc., and provision will be made at each of the churches to receive such articles as you may wish to contribute to the cause. A cold winter is upon us, let us with our plenty remember the needy.

HOW TO IMPROVE YOUR EMBROIDERY BY TOUCHES OF BLACK.

In fashions the touch of black is a recognized addition to a color scheme. The same is true of embroidery. Many a centerpiece or scarf that lacks tone may be improved by outlining the color design with black. This is especially recommended on the heavy linen and scrim covers where brilliant hues appear unfinished or need bringing out.

However, black outlining is very effective on the ordinary white linen centerpiece worked in plain white. One of these seen recently had a jewel pattern with conventional scrolls done all in white. The jewels and the scrolls were outlined with a thin black thread. The centerpiece was bordered with heavy white torchon, and the whole was very effective.

Telephone

By-Paths

Most of the places which can be reached by a toll call are towns and villages where the salesman seldom goes because train service is infrequent. Telephone Service is Constant.

Every merchant or jobber has within his grasp, in a radius even so small as fifty miles, an amount of business worth going after by telephone, but as yet unknown to him. That business could be his instead of going to distant mail order houses. He need not travel, for the telephone trade or visit can be made at any time.

Traveling salesmen at various junction points along main traveled routes can reach by telephone many small places which otherwise might not be included in their itinerary because of the time and expense involved in a call in person. The Telephone line is direct, and there are practically no unreachable localities.

There will be no charge on a particular party toll call if you are not connected with the person whose name you have given to the toll operator.
